Objective

Customer-focused professional with over 3 years of experience in retail, client service, and contact-centre support. Brings strong communication, problem-solving, leadership, and organizational skills, with a proven ability to assist diverse clients and work effectively in fast-paced environments.

Core Qualifications

- Trilingual: Fluent in English, French, and Turkish
- Exceptional customer service and communication skills
- Proven leadership and team coordination abilities
- Strong problem-solving, active listening, and interpersonal skills
- Detail-oriented and organized under pressure
- Experienced with digital information systems, POS systems, and cash handling
- Fast learner with a proactive and professional attitude

Professional Experience

Statistics Canada - Ottawa, ON

Census Paper Processing Operator - July 2026 - September 2026

- Processed and validated paper census questionnaires for accuracy, completeness, quality standards, and confidentiality compliance.
- Prepared questionnaire batches for automated processing by operating industrial guillotine equipment and verifying scanning and production specifications.
- Operated high-volume scanning and imaging systems to digitize questionnaires while maintaining document integrity, data quality, and workflow efficiency.
- Performed document and image quality assurance checks, identified processing anomalies, and resolved routine operational issues to support accurate data capture.
- Followed production, safety, security, and confidentiality procedures while meeting deadlines in a large-scale census processing environment.
- Used specialized systems to receive, track, monitor, and finalize respondent information supporting the development of the collected-information database.

Census Helpline Operator - April 2026 - July 2026

- Delivered high-volume English-language client service to Canadians, providing clear guidance on census questionnaires and resolving inquiries efficiently.
- Applied active listening, communication, and interpersonal skills to explain complex information and help address barriers to census participation.
- Used critical thinking and problem-solving skills to assess individual situations, identify appropriate solutions, and escalate complex issues when required.
- Maintained strict confidentiality and security of sensitive personal information in accordance with privacy requirements and organizational procedures.
- Used multiple information systems, knowledge bases, and reference tools to research inquiries, document interactions, and provide accurate, consistent responses.
- Supported national census data-collection goals while balancing service quality and productivity targets in a fast-paced contact-centre environment.

Eddie Bauer - Ottawa, ON
